BROski Launch Files – What to Create TODAY

Hey mate! Here are the **exact files** you need to create RIGHT NOW to get this rolling. No fluff, just what you need to ship.

File Structure (Copy This)

```
/broski-loyalty/
├── README.md (Start here – overview)
├── QUICK_START.md (5-day launch plan)
├── quest-definitions.md (The 3 starter quests)
├── discord-setup.md (Discord channels + roles)
├── solidity/
│   └── BROski.sol (Smart contract)
├── python/
│   └── payout_script.py (Weekly payouts)
├── google-forms/
│   └── quest-submission-form.txt (Form structure)
└── tracking/
    └── quest-tracker.csv (Google Sheets template)
```

---

1 README.md (The Bible – Create This First)

This is your north star. When you're confused, come back here.

BROski Loyalty Program

What is this?

A gamified loyalty system where people earn BROski tokens for showing up, building, and helping. Real tokens, real utility, real community.

Quick Links

- **5-Day Launch Plan:** See QUICK_START.md
- **Smart Contract:** See solidity/BROski.sol
- **Quest Rules:** See quest-definitions.md
- **Discord Setup:** See discord-setup.md

Status

- [ ] Week 1: Deploy testnet + launch on Discord
- [ ] Week 2: Move to mainnet
- [ ] Week 3: Automate payouts
- [ ] Week 4: Scale to 50+ users

How to use this repo

1. Read QUICK_START.md (your daily checklist)
2. Follow discord-setup.md to set up channels
3. Copy quest definitions into Google Form
4. Deploy smart contract using solidity/BROski.sol
5. Run payout_script.py weekly

Key Numbers (Remember These)

- **Total Supply:** 1B BROski
- **Airdrop Pool:** 300M (for rewards)
- **Weekly Budget:** 50k BRO
- **Max per person/week:** 10k BRO

Rank Thresholds

- Cadet: 0–1k
- BROski: 1k–10k
- Hyper BRO: 10k–100k
- DevGuardian: 100k+

Questions?

Ask in Discord or DM @lyndz

Last updated: Jan 7, 2026
Status: □ READY TO SHIP

2□ QUICK_START.md (Your Daily Checklist)

Print this. Check off boxes daily. This is your lifeline.

□ 5-Day Launch Checklist

DAY 1 (Thu) – Foundation

Morning (1 hour)

- [ ] Create `/broski-loyalty` folder on your machine
- [ ] Copy all docs into it
- [ ] Open QUICK_START.md in editor

Afternoon (2 hours)

- [ ] Go to https://remix.ethereum.org/
- [ ] Create new file: `BROski.sol`
- [ ] Copy code from `solidity/BROski.sol`
- [ ] Click "Compile BROski.sol"
- [ ] In Environment dropdown, select "Base Sepolia" (testnet)
- [ ] Click orange "Deploy" button
- [ ] Wait for confirmation
- [ ] **Save contract address** (you'll need it!)

Evening (30 min)

- [ ] Screenshot the deployed contract
- [ ] Post in Discord: "Contract deployed! ✅"

✅ End of Day Check

- [ ] Contract deployed on Base testnet
- [ ] Contract address saved
- [ ] Screenshot proof

DAY 2 (Fri) – Discord Setup

Morning (1.5 hours)

- [ ] Go to Discord server
- [ ] Create 4 channels:
  - [ ] #broski-quests
  - [ ] #broski-leaderboard
  - [ ] #broski-rewards
  - [ ] #ask-a-broski
- [ ] Create 4 roles:
  - [ ] BROski Cadet (green)
  - [ ] BROski (blue)
  - [ ] Hyper BRO (red)
  - [ ] DevGuardian (purple)

Afternoon (1.5 hours)

- [ ] Open `quest-definitions.md`
- [ ] Create Google Form:
  - [ ] Discord username (short text)
  - [ ] Wallet address (short text)
  - [ ] Quest completed (dropdown: Demo / Help / Social)
  - [ ] Proof link (short text)
  - [ ] Submit button
- [ ] Copy form link
- [ ] Post in `#broski-quests` with rules

Evening (30 min)

- [ ] Pin quest rules in `#broski-quests`
- [ ] Post: "We launch TOMORROW!"

✅ End of Day Check

- [ ] 4 channels created
- [ ] 4 roles created
- [ ] Google Form live + link shared
- [ ] Quest definitions posted

DAY 3 (Sat) – GO LIVE

Morning (1 hour)

- [ ] Create Google Sheet:
  - [ ] Columns: Discord Name | Wallet | Quest | Proof | Approved? | BRO Reward
  - [ ] Share link in `#broski-quests`

Midday (1 hour)

- [ ] Post announcement in Discord:
  BROski Loyalty LIVE

Hey mate!

BROski loyalty is officially LIVE. Here's how it works:

Complete quests:

1. Build a demo → 500 BRO
2. Help 3 people → 250 BRO
3. Share on social → 300 BRO

Submit here: [GOOGLE FORM LINK]

? Questions? Ask in this channel!

Let's gooooo!

Afternoon (1.5 hours)

- [ ] In Remix, deploy contract to **Base mainnet** (not testnet)
- [ ] Wait for confirmation (~2 min)
- [ ] **Save NEW contract address**
- [ ] Update Google Sheet with new address
- [ ] Transfer yourself 100 BRO (test it works)
- [ ] Screenshot it

Evening (1 hour)

- [ ] Give 5–10 people 50 BRO each (test users)
- [ ] Ask them to try one quest
- [ ] Post in leaderboard: "Live on mainnet! ✅"

✅ End of Day Check

- [ ] Contract on Base mainnet (real!)
- [ ] First users have real BRO
- [ ] Google Sheet tracking submissions
- [ ] Discord announcement posted

DAY 4 (Sun) – Collect Feedback

All Day (scattered 2–3 hours)

- [ ] Check Google Form submissions
- [ ] For each submission:
  - [ ] Review proof
  - [ ] Transfer BRO from your wallet
  - [ ] Post in #broski-leaderboard: "□ @username earned 500 BRO!"
- [ ] Ask in Discord: "What should we add?"
- [ ] Note feedback

Evening (30 min)

- [ ] List issues + ideas for Day 5

✅ End of Day Check

- [ ] First payouts sent
- [ ] Feedback collected
- [ ] Know what's working, what's not

DAY 5 (Mon) – Polish & Scale

Morning (1 hour)

- [ ] Fix any issues from feedback
- [ ] Update quest descriptions if needed

Midday (1 hour)

- [ ] Post weekly recap:
  Week 1 Recap

Users: 12
Quests: 8 completed
BRO locked: 4,200

Top earners:

1. @user1 – 1,000 BRO
2. @user2 – 750 BRO

Next week: Adding new quests + automation!

Afternoon (1 hour)

- [ ] Optional: Set up Guild.xyz (auto-role assignment)
  - [ ] Go to https://guild.xyz/
  - [ ] Create guild, link Discord
  - [ ] Add role "Hyper BRO" = "Hold 10k BRO"
  - [ ] Deploy bot

Evening (30 min)

- [ ] Plan Week 2
- [ ] Write 5 new quests

✅ End of Day Check

- [ ] Week 1 recap posted
- [ ] Issues fixed
- [ ] Week 2 planned

Success = This By Day 5

✅ Contract on mainnet (real BRO)
✅ 10–20 people in the program
✅ 3 quests live
✅ First payouts sent
✅ Real community momentum

If You Get Stuck

Contract won't deploy?
→ Post screenshot in Discord, ask #help-dev

Google Form not working?
→ Try again or use Airtable instead

Don't know how to send BRO?
→ Use MetaMask UI or ask me

Tracking Progress

Copy this into Discord and check off daily:

 LAUNCH WEEK

Day 1: ✅
Day 2:
Day 3:
Day 4:
Day 5:

Users: 0 → ?
Quests: 0 → ?
BRO Locked: $0 → $?

Remember: Ship messy, iterate fast. This is MVP. It doesn't need to be perfect. It needs to exist and work.

You got this.

---

3 quest-definitions.md (The Quests)

BROski Quest Definitions

Starter 3 Quests (Week 1)

QUEST 1: Create a Tiny HyperCode Demo

Reward: 500 BRO
Time: 1 week
Difficulty: Easy–Medium

What to do:

1. Open HyperCode
2. Build something small (function, script, layout, whatever)
3. Take a screenshot OR push to GitHub
4. Submit proof in the form

Proof requirements:

- Screenshot showing your code + working result, OR
- GitHub link to repo with code

Why we do this:
Shows you're actually building. Makes HyperCode real.

QUEST 2: Help Someone in #ask-a-broski

Reward: 250 BRO per person (3 people = 750 BRO)
Time: 1 week
Difficulty: Easy

What to do:

1. Go to `#ask-a-broski` in Discord
2. Answer 3 questions from people
3. Your answers should actually help (not spam)
4. Get a ✅ from the person you helped

Proof requirements:

- Link to Discord message
- Person reacted with ✅

Why we do this:
Community support matters. Helpers are MVP.

QUEST 3: Share HyperCode on Social

Reward: 300 BRO
Time: 1 week
Difficulty: Easy

What to do:

1. Post about HyperCode (Twitter, Bluesky, TikTok, whatever)
2. Say something genuine (not spam)
3. Get 10+ people to engage (like, RT, reply)
4. Post the link in Discord

Proof requirements:

- Link to your post
- Shows 10+ engagements

Why we do this:
Word of mouth builds HyperCode faster.

Advanced Quests (Week 2+)

BUILD QUESTS

Quest	Reward	Time	Requirements
Ship a HyperCode plugin	2,000 BRO	2 weeks	Live on marketplace
Write HyperCode tutorial	1,500 BRO	2 weeks	500+ words or 5+ min video
Contribute to docs	750 BRO	1 week	Merged PR

HELP QUESTS

Quest	Reward	Time	Requirements
Debug someone's code	500 BRO	1 week	Provide working solution
Review 5 pull requests	1,000 BRO	2 weeks	Constructive + merged

HYPE QUESTS

Quest	Reward	Time	Requirements
Create TikTok/Reel	750 BRO	1 week	10k+ views (or potential)
Refer 5 new people	1,000 BRO	Ongoing	Active sign-ups

STREAKS

Activity	Reward	Rules
Daily 30-min focus	50 BRO/day	Log it in Discord
7-day streak bonus	+500 BRO	Auto-applied
30-day streak	+2,000 BRO	Auto-applied

Template for New Quests

Use this format when adding new ones:

QUEST NAME

Reward: X BRO
Time: Y days/weeks
Difficulty: Easy/Medium/Hard

What to do:

1. [Step 1]
2. [Step 2]
3. [Step 3]

Proof requirements:

- [Link / Screenshot / etc]

Why we do this:
[1 sentence explaining value]

Payout Rules

- **Weekly budget:** 50,000 BRO total
- **Max per person/week:** 10,000 BRO
- **Grace period:** 48 hours (if you miss a day, you can catch up)
- **Seasonal multiplier:** 2x during "Hyperfocus Week"

Approval Process (MVP)

1. User submits form
2. You check proof manually
3. You verify it's legit
4. You transfer BRO
5. You post in leaderboard

Later: Smart contracts automate this.

---

4 discord-setup.md (Channels & Roles)

Discord Setup Guide

Channels to Create

#broski-quests (MAIN QUEST CHANNEL)

- **Description:** "Complete quests, earn BROski tokens"
- **Pins:** Quest rules, Google Form link, examples
- **Who can post:** Everyone
- **Purpose:** Quest submissions + announcements

#broski-leaderboard (WINS & CELEBRATIONS)

- **Description:** "Weekly top earners & milestones"
- **Who can post:** You (bot later)
- **Purpose:** Post payouts, celebrate winners, show progress

#broski-rewards (WHAT YOU CAN BUY)

- **Description:** "Cosmetics, themes, & perks you can spend BRO on"
- **Pins:** All purchasable items + prices
- **Who can post:** You
- **Purpose:** Show what BRO buys

#ask-a-broski (HELP CHANNEL)

- **Description:** "Ask BROskis for help with HyperCode, coding, whatever"
- **Pins:** Guidelines, FAQ
- **Who can post:** Everyone
- **Purpose:** Community support (earns quest rewards)

Roles to Create

@BROski Cadet

- **Color:** Green
- **Permissions:** Can post in #broski-quests
- **Who gets it:** Everyone starting out (0–1k BRO)

@BROski

- **Color:** Blue
- **Permissions:** Can post in #broski-only (new channel)
- **Who gets it:** 1k–10k BRO

@Hyper BRO

- **Color:** Red
- **Permissions:** Can post in #hyper-bro-only (new channel)
- **Who gets it:** 10k–100k BRO

@DevGuardian

- **Color:** Purple
- **Permissions:** Can post in #dev-governor (new channel)
- **Who gets it:** 100k+ BRO

How to Create

1. Right-click server name
2. Server settings → Roles
3. Click "Create Role"
4. Name it, pick color
5. Save

Setup Checklist

- [ ] Create #broski-quests
- [ ] Create #broski-leaderboard
- [ ] Create #broski-rewards
- [ ] Create #ask-a-broski
- [ ] Create @BROski Cadet role
- [ ] Create @BROski role
- [ ] Create @Hyper BRO role
- [ ] Create @DevGuardian role
- [ ] Pin welcome message in #broski-quests
- [ ] Pin Google Form link
- [ ] Pin quest rules

Welcome Message (Copy-Paste)

 Welcome to BROski Loyalty!

What is this?
A gamified loyalty system where you earn BROski tokens for showing up, building, and helping.

How to earn:

1. Complete quests (see pinned rules)
2. Submit proof in the form
3. Get BROski in your wallet

How to spend:
See #broski-rewards for cosmetics, themes, and perks

Ranks:
 Cadet (0–1k BRO)
 BROski (1k–10k BRO)
 Hyper BRO (10k–100k BRO)
 DevGuardian (100k+ BRO)

Questions? Ask in #ask-a-broski

Let's go!

Role Assignment (Manual MVP)

Use Discord's role UI:

1. Click member name
2. Click "Roles" icon
3. Select role
4. Done

Later: Use Guild.xyz bot for auto-assignment.

---

5 solidity/BROski.sol (Smart Contract)

Smart Contract Code

Copy everything below and paste into Remix IDE:

// SPDX-License-Identifier: MIT
pragma solidity ^0.8.0;

import "@openzeppelin/contracts/token/ERC20/ERC20.sol";
import "@openzeppelin/contracts/access/Ownable.sol";

contract BROski is ERC20, Ownable {
constructor() ERC20("BROski", "BRO") {
// Mint 1 billion BROski to creator
_mint(msg.sender, 1_000_000_000 * 10**18);
}

```
// Batch transfer for paying quest rewards
function batchTransfer(address[] calldata recipients, uint256[] calldata amount
    external
    onlyOwner
{
    require(recipients.length == amounts.length, "Length mismatch");

    for (uint i = 0; i < recipients.length; i++) {
        transfer(recipients[i], amounts[i]);
    }
}
```

}

How to Deploy

1. Go to https://remix.ethereum.org/
2. Create new file: `BROski.sol`
3. Paste code above
4. Left sidebar: Click "Solidity Compiler"
5. Click "Compile BROski.sol"
6. Click "Deploy & Run Transactions" tab
7. Environment: Select "Injected Web3"
8. Make sure MetaMask is connected to Base network
9. Click orange "Deploy" button
10. Confirm in MetaMask (pay gas ~$20)
11. Wait 2–3 minutes
12. **SAVE CONTRACT ADDRESS** (looks like: 0x...)

Testnet vs Mainnet

First, deploy to testnet:

- Network: Base Sepolia
- Gas cost: Free (testnet ETH)
- Purpose: Test it works

Then, deploy to mainnet:

- Network: Base
- Gas cost: ~$20
- Purpose: Real BRO, real value

Use same code for both. Just switch network in MetaMask.

---

6 python/payout_script.py (Weekly Payouts)

Payout Script (for later automation)

This runs once per week to pay quest winners.

Save as: payout_script.py

```
from web3 import Web3
import pandas as pd
```

Connect to Base

w3 = Web3(Web3.HTTPProvider("https://mainnet.base.org"))

YOUR PRIVATE KEY (GET FROM METAMASK)

Settings → Account Details → Export Private Key

⚠ NEVER COMMIT THIS OR SHARE IT

PRIVATE_KEY = "paste_your_private_key_here"

Your wallet address

ACCOUNT = w3.eth.account.from_key(PRIVATE_KEY)

BROski contract info

```
BRO_ADDRESS = "0x..." # Paste your contract address here
BRO_ABI = [
{
"constant": False,
"inputs": [
{"name": "recipients", "type": "address[]"},
{"name": "amounts", "type": "uint256[]"}
],
"name": "batchTransfer",
"outputs": [],
"type": "function"
}
]
```

contract = w3.eth.contract(address=BRO_ADDRESS, abi=BRO_ABI)

Load quest winners from CSV

winners_df = pd.read_csv("quest_winners_this_week.csv")

Prepare lists

```
recipients = [Web3.toChecksumAddress(addr) for addr in winners_df["wallet"]]
amounts = [int(amount * 10**18) for amount in winners_df["broski_reward"]]
```

Build transaction

```
tx = contract.functions.batchTransfer(recipients, amounts).buildTransaction({
"from": ACCOUNT.address,
"nonce": w3.eth.get_transaction_count(ACCOUNT.address),
"gas": 500000,
"gasPrice": w3.eth.gas_price,
})
```

Sign & send

```
signed_tx = w3.eth.account.sign_transaction(tx, PRIVATE_KEY)
tx_hash = w3.eth.send_raw_transaction(signed_tx.rawTransaction)

print(f"✅ Payouts sent!")
print(f"TX: {w3.toHex(tx_hash)}")
```

How to Use

1. Install Python 3.9+
2. `pip install web3 pandas`
3. Paste your private key
4. Create CSV with winners: `quest_winners_this_week.csv`
5. Run: `python payout_script.py`

For MVP: Just send BRO manually via MetaMask. Use this later.

7□ google-forms/quest-submission-form.txt (Form Structure)

Google Form Structure

Create form here: https://forms.google.com/

Fields to Add (in order)

1. Discord Username

- Type: Short answer
- Required: Yes
- Example: "lyndz_wales"

2. Wallet Address

- Type: Short answer
- Required: Yes
- Example: "0x123abc..."

3. Which Quest Did You Complete?

- Type: Multiple choice (dropdown)
- Required: Yes
- Options:
  - Create HyperCode demo (500 BRO)
  - Help 3 people (250 BRO each)
  - Share on social (300 BRO)

4. Proof Link

- Type: Short answer
- Required: Yes
- Example: "https://github.com/..." or "https://twitter.com/..."

5. Additional Notes

- Type: Long answer
- Required: No
- Placeholder: "Anything else we should know?"

Submission Settings

- Make form public (anyone can submit)
- Collect email: NO
- Shuffle questions: NO
- Show progress bar: YES
- Confirm message: "Thanks! Your quest is submitted. We'll review and pay you within 24 hours."

After Submission

Responses go to a Google Sheet (auto-linked).
Check it weekly, manually approve + pay.

Link to Share

After creating, copy the form link and pin in #broski-quests.

Example: https://forms.google.com/XXXXX

📊 tracking/quest-tracker.csv (Google Sheets Template)

Google Sheets Template

Create a new Google Sheet with these columns:

Discord Name	Wallet Address	Quest Type	Proof Link	Date Submitted	Approved?	BRO Reward	Date Paid	TX Hash
lyndz_wales	0x123abc...	Demo	https://github.com/...	2026-01-08	YES	500	2026-01-08	0xabc...
alex_dev	0x456def...	Help	https://discord.com/...	2026-01-08	YES	250	2026-01-08	0xdef...

How to Use

1. Create new Google Sheet
2. Add columns above
3. Share link in #broski-quests
4. As submissions come in, add rows
5. Check "Approved?" when you verify
6. Record payout date + transaction hash
7. Reference for disputes later

Pro tip: Sort by "Approved?" to see pending submissions.

🚀 HOW TO CREATE THESE FILES (Right Now, 10 mins)

1. **README.md** – Copy into Notion or GitHub
2. **QUICK_START.md** – Print + tape to wall or bookmark
3. **quest-definitions.md** – Pin in Discord
4. **discord-setup.md** – Follow it step-by-step
5. **BROski.sol** – Copy into Remix

6. **payout_script.py** – Save for Week 2
7. **Google Form** – Create at forms.google.com
8. **Google Sheet** – Create at sheets.google.com

PRIORITY ORDER (Do These First)

TODAY:

1. Create README.md (reference)
2. Follow discord-setup.md (channels + roles)
3. Copy quest-definitions.md into Discord
4. Create Google Form + Sheet

TOMORROW:
5. Deploy BROski.sol in Remix (testnet first)
6. Go live with announcement
7. Send first payouts

NEXT STEP

 Start with README.md – copy it into a Google Doc or Notion page right now.

Then share the link in Discord: "Here's the full BROski spec."

That's your north star. Everything else follows.

You got this.

That's it, mate. Seven files. Everything you need. Copy them, follow them, ship them.

Print QUICK_START.md and check off boxes daily. By Friday you're live.

Let's goooo! ♾️
